PALLAVI B G

UI/UX DESIGNER | PRODUCT DESIGNER

Mysuru, Karnataka, India | +91 6364230317 | pallavibggowda016@gmail.com | linkedin.com/in/pallavi-bg | Portfolio: [add portfolio URL]

PROFESSIONAL SUMMARY

UI/UX and Product Designer with 1.5 years at Dyashin Technosoft, designing enterprise SaaS and web platforms. Translates complex business requirements into clear user flows, information architecture and role-based experiences, and builds reusable Figma components for developer handoff. Project experience spans healthcare, EdTech, recruitment and CRM, with a focus on dashboards, data-heavy tables and multi-step workflows.

CORE SKILLS & TOOLS

UX Design: User Flows, Information Architecture, Wireframing, Role-Based UX, Usability Heuristics, Dashboard Design, Complex Forms & Data Tables

UI & Visual Design: High-Fidelity UI, Responsive Web Design, Typography, Data Visualization

Prototyping & Interaction: Rapid Prototyping, Interaction Patterns, Multi-Step Workflows

Design Systems: Component Libraries, Component Architecture, Design Tokens, Reusable Interaction Patterns

Tools: Figma, FigJam, Canva, Adobe Photoshop

Development Collaboration: Developer Handoff, Developer-Ready Specifications; working knowledge of HTML, CSS, JavaScript, React, Git

AI-Assisted Design: Claude, Antigravity

PROFESSIONAL EXPERIENCE

UI/UX Designer | Dyashin Technosoft Pvt. Ltd., India **Sep 2025 – Aug 2026**

- Translated complex business logic and stakeholder requirements into user flows, information architecture and end-to-end workflows for SaaS and enterprise web platforms.
- Designed role-based views and navigation matched to different user goals and permissions across web platforms.
- Built and maintained modular Figma component libraries and reusable interaction patterns to keep design consistent across development teams.
- Collaborated with product managers and engineering leads, taking designs from wireframes to developer-ready specifications.

UI/UX Design Intern | Dyashin Technosoft Pvt. Ltd., India **Feb 2025 – Sep 2025**

- Identified usability bottlenecks in enterprise products and restructured legacy screens into clearer, more intuitive interfaces.
- Designed high-density interfaces, including multi-step data entry forms and analytical dashboards.

SELECTED PROJECTS

MediTrack — Pharmacy Management Platform

Healthcare UX | Role-Based IA | Complex Workflows

- Designed role-based workflows for three user roles: Admin, Pharmacist and Sales Incharge.
- Designed high-density inventory tables covering near-expiry alerts, low-stock status and expired-stock handling.
- Designed a multi-branch medicine search to locate out-of-stock items and initiate stock transfers.

DSEdify — Education Management SaaS (Learning Management Platform)

EdTech UX | Multi-Role Architecture

- Mapped journeys and access privileges for Students, Trainers, Admins and Moderators across the learning lifecycle.
- Designed assessment tools for trainers and responsive test-taking interfaces for students.

DSJobby — Recruitment & Campus Placement Platform

Recruitment UX | Pipeline Design

- Designed candidate and recruiter journeys from profile building to offer release.
- Designed an interactive hiring pipeline for moving candidates through screening, interview and offer stages.

DSCRM — Enterprise CRM

Enterprise SaaS | Sales Workflow Design

- Designed lead-tracking workflows for multiple service lines and nested client requirements.
- Designed scalable data tables with configurable column visibility and edge-case handling.

EDUCATION

Bachelor of Engineering (B.E.), Artificial Intelligence & Data Science — 7.97 CGPA

Maharaja Institute of Technology, Thandavapura | 2025

Pre-University Course (PCMB) — 71.83%
Sri Jayachamarajendra PU College, Mysuru | 2021

SSLC — 68.82%
Dayananda Arya Vidya Public School, Mysuru | 2019
